AT&T got billions in tax breaks and then eliminated over 10,000 jobs and made plans to close 4 more call centers this year.

These job cuts come after AT&T CEO Randall Stephenson made big promises to create jobs if he got his tax cut.

Meanwhile, AT&T is stonewalling workers who want to bargain a fair union contract to keep good jobs in our communities.

It's time for Congress to launch an investigation to find out what happened to the billions of dollars of our money that they gave away to AT&T and other corporations that are cutting jobs.
